## DORPEN- EN STEDENBOUW

Zoals je in dit boekje zult zien, is het aantal modellen, dat je met Mobaco Dorpen- en Stedenbouw kunt bouwen, ontelbaar. Heb je al de modellen uit dit boekje nagebouwd, dan kan je naar eigen fantasie zelf allerlei gebouwen ontwerpen en bouwen.

Hoe groter de doos, des te groter het aantal en de verscheidenheid aan onderdelen.

Hoe je zo'n model moet bouwen? Wel dat is niet zo moeilijk. De tekeningen hiernaast laten je zien hoe een Mobaco huisje ontstaat. Je begint altijd met de grondplaat, daarna worden op de juiste afstand de paaltjes geplaatst, waartussen de muren worden opgetrokken en zo bouw je steeds verder.

Hiermede kan je dus steeds mooiere en ingewikkelder modellen maken. Op de laatste pagina staat zelfs een heel dorpje afgebeeld met een kerk, een stadhuis, bruggen en huizen, alles gebouwd met Mobaco Dorpen- en Stedenbouw! Voor zo'n dorp of stad zijn echter vele gronddozen nodig. Vraag je vriendjes, die ook een Mobaco doos hebben, en bouwen jullie samen eens zo'n dorp!

Er zijn 5 verschillende Mobaco gronddozen, n.l. A, B, C, D en E, iedere volgende doos met meer onderdelen. Elke doos kan echter worden omgezet in de daaropvolgende, dus in een grotere doos, n.l. door het kopen van een aanvullingsdoos. Op deze wijze kan je doos A omzetten in doos B, door doos A-B te kopen.

Als het klaar is kan je er nog je andere speelgoed, zoals auto's, treinen enz. bij halen. Dan ziet het er nog echter uit.

Zo kan je dus, ongeacht met welke gronddoos je begint, je uitrusting langzamerhand uitbreiden, want begin je met doos D, dan kan je die door aanvullingsdoos D-E omzetten in gronddoos E. Volg de pijltjes van dit schema:

Maar nu aan de slag en spoedig zal jij ook tot de enthousiaste Mobaco architecten behoren!

Op de achterzijde van dit boekje vind je een tabel waarop je kunt zien, welke onderdelen in de verschillende dozen zitten.

Alle onderdelen zijn ook los verkrijgbaar.

Alle Mobaco onderdelen zijn uit onverwoestbaar materiaal vervaardigd.
